I. Introduction

The primary purpose of this report is to investigate and fully and fairly disclose the actuarial position of the System as of January 1, 2007 and to establish the proper appropriation for the 2007 plan year, in accordance with the funding standards of Section 6 of Act 96, 1971 of the Commonwealth of Pennsylvania as amended.

On the basis of the actuarial methods, assumptions and major plan provisions summarized in this report and in reliance on the member data and statement of the Fund's assets furnished by the County, to the best of our knowledge the information in this report is complete and accurate.

In our opinion, this report presents fairly the financial and actuarial position for the Schuylkill County Employees' Retirement Plan as of January 1, 2007 in accordance with generally accepted actuarial principles, and on the basis of actuarial assumptions and methods which, in the aggregate, are reasonable (taking into account past experience under the System and reasonable expectations) and which in combination represent our best estimate of anticipated experience.

Respectfully submitted,

HayGroup

II. Findings

Certified Annual Required Contribution (ARC)

Please note that the certified Annual Required Contribution which is reported on page 9 of this report and which must be funded in 2007 is \$1,217,811.00. This is required to be made by the County from the General Fund.

Cost-of-Living Funding Requirements

The amount required to fund the cost-of-living increase granted effective January 1, 2007 is \$815,246.00. This funding requirement increases the present value of future benefits for retired lives. The amount may be funded through direct appropriations or will be funded over the average service lives of the active participants and will be reflected as an increase in the Annual Required Contribution (ARC).

Actuarial Adjustments

Also note that the balances in the Reserve Accounts on page 8 reflect the following transfers which are necessary to keep the balance in the Retired Member's Reserve Account equal to the liability for the retired lives and to reflect the difference between the amount of interest credited to the respective reserves and the interest rate assumed in the valuation of the liabilities. Please make these transfers in your records:

	DEBIT	CREDIT
County Annuity Reserve Account	\$ 433,676.60	
Retired Members Annuity Reserve Account		\$ 433,676.60

Schuylkill County Employees' Retirement System

Notes to the Financial Statements for the Fiscal Year Ended December 31, 2006

Summary of Significant Accounting Policies

Basis of Accounting: The Schuylkill County Employees' Retirement System financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Method Used to Value Investments: Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value.

Plan Descriptions and Contribution Information

Membership of the plan consisted of the following at December 31, 2006, the date of the latest actuarial valuation:

Retirees and Beneficiaries Receiving Benefits	443
Terminated Plan Members Entitled to but not yet Receiving Benefits	33
Active Plan Members	713

Schuylkill County Employees' Pension System

Plan Description: The Schuylkill County Employees' Pension Plan is a single-employer defined benefit pension plan that covers all employees of the County. The plan provides retirement, disability, and death benefits to plan members and their beneficiaries. Cost-of-living adjustments (COLA) are provided at the discretion of the Schuylkill County Employees' Retirement Board. Act 96 of 1971, as amended cited as the County Pension Law provides for the creation, maintenance and operation of this plan.

Contributions: Plan members are required to contribute 8% of their annual covered salary. The County is required to contribute at an actuarially determined rate. Per Act 96 of 1971, as amended, contribution requirements of the plan members and the County are established and may be amended by the General Assembly of the Commonwealth of Pennsylvania. Administrative costs may be financed through investment earnings.

Schedule D

The following are notes to Schedules B and C:

Members' Annuity Reserve Account

The balance of \$24,456,701.85 in this account is the total of the contributions deducted from the salaries of the active and terminated vested members of the retirement system and the IRC 414(h)(2) pickup contributions together with the interest additions as of January 1, 2007. Since these accumulations represent the present value as of January 1, 2007, of future benefits, the reserve balance and liability are identical.

County Annuity Reserve Account

The balance of \$20,695,092.13 in this account as of January 1, 2007 and the amounts expected to be credited in the future, plus investment earnings, represent the reserves set aside for the payment of the county's share of the retirement allowances.

This is the account out of which regular interest is credited to the member's annuity and retired members' reserve account, administrative expenses may be paid and the pension obligations of the County are funded.

When a County Annuity is scheduled to commence for a particular member, sufficient monies are transferred from the County Annuity Reserve Account to the Retired Members' Reserve Account to provide for such County Annuities actually entered upon.

Retired Members' Reserve Account

This is the account out of which monthly retirement allowances including cost-of-living increases and death benefits are paid.

The assets allocated to this reserve account as of January 1, 2007 amount to \$32,158,242.00. The corresponding liability for those annuitants on the roll is identical.

Schedule D--Continued

Adjustment for Market Value Fluctuation

In order to reduce the fluctuations in the County normal cost which can result from full recognition of the unrealized appreciation or depreciation of the Fund's securities each year, the value of assets used to determine costs was determined by adjusting the cost value of the assets by the average ratio of market to cost value for the past five years:

RATIO OF MARKET VALUE TO COST VALUE OF ASSETS				
January 1		(1) Cost Value of Assets	(2) Market Value of Assets	Ratio (2) / (1)

Schedule J

Actuarial Assumptions and Actuarial Cost Method for Funding Purposes, January 1, 2007.

Actuarial Assumptions

Mortality Rates: The life expectancy of all members (active and retired) is determined in accordance with the mortality rates set forth in the 1983 Group Annuity Mortality Table.

Withdrawal Rates: Members not eligible to retire are assumed to terminate employment in accordance with a percentage of the withdrawal rates set forth in Table T-7 of the Actuary's Handbook. The applicable percentage depends on the member's years of service as follows:

YEARS OF SERVICE	PERCENTAGE
less than 1	300 %
1 but less than 2	275 %
2 but less than 3	250 %
3 but less than 4	225 %
4 but less than 5	200 %
5 but less than 6	175 %
6 or more	100 %

It is further assumed that a percentage of members who terminate after having met the Plan's five year vesting requirement will elect an immediate refund of their own contributions with interest thus forfeiting the County -- provided pension. The applicable percentage is 100% for termination ages up to age 30. After age 30 the applicable percentage is determined as 100% less (age - 30) x 3 1/3%. Illustrative percentages are as follows:

AGE	PERCENTAGE
30 or less	100.0 %
35	83.3 %
40	66.7 %
45	50.0 %
50	33.3 %
55	16.7 %

The following tables set forth illustrative withdrawal rates as determined in accordance with the methodology described on the previous page.

Retirement Rates: Members eligible to retire are assumed to retire in accordance with the following rates:

AGE AT BEGINNING OF YEAR	PROBABILITY OF RETIRING DURING YEAR
55-59	.07
60-61	.08
62-64	.15
65	.34
66-70	.23
71-79	.21
80	1.00

Disability Rates Disability rates are not used.

Investment Return 7½% per annum, compounded annually.

Salary Increases 3% per annum increase from 2002 to 2003 with subsequent increases in .25% increments until the ultimate assumed rate of 4.5% is attained for 2009 and later years.

Valuation Assets The assets at cost value adjusted by the past five-year average of the market to cost ratio of assets.

Administrative Expenses Assumed to be paid from the County’s general fund and not from plan assets. However, administrative expenses may from year to year be paid from the fund unless it is determined by the actuary that such payment will impair the actuarial soundness of the fund.

Actuarial Cost Method The Aggregate Actuarial Cost Method of funding was used to determine costs. Under this method, the valuation assets of the plan are subtracted from the present value of all projected benefits. The result, when divided by the present value of future compensation, gives a percentage normal cost factor which is applied to the estimated 2007 compensation of all members to arrive at the normal cost at the beginning of the plan year.
